

PRoPART Final Demonstration

Date/Time: 21/11/2019 09:00-16:30 CET

Location: [AstaZero Proving Ground](#)

Description

During this event, you will have the chance to learn more about the results and findings of the H2020 project [PRoPART](#), funded by European GNSS Agency (GSA), in the field of EGNSS-based positioning for automated road transport and get to know the latest innovations in cooperative systems and UWB positioning technologies in a seminar. Furthermore, participants will experience a live demonstration of the developed systems showcasing positioning technologies for demanding vehicle-automation scenarios.

For attending the PRoPART Final Demonstration please register [here](#) by **October 31, 2019**.

The detailed programme will follow shortly.

For more information on the organisation of the eve or regarding canceling of registration please contact stefan.nord@ri.se.
